## The 1 Week Summer Program

@ *Whitestown Arena*

**August 2nd - August 6th**  
**Ages 8—14 yrs.**

**Want to play College Hockey?**  
**...Then learn from College Coaches!**

**HHS**  
**Intense Hockey Training**

Designed to help each player reach their potential, **Heenan's Hockey Systems** include a method of instruction that clearly identifies a player's inefficient habits. Those individual tendencies become the focal point that **HHS** isolates by pushing that player to break his or her "comfort zone". The result: the player re-learns through proper coaching techniques and repetition to develop a stride that's more efficient, more explosive and more powerful, incorporating greater agility with better balance.

**HHS** incorporates all of the following into the daily schedule of our Summer Program:

- **Power Skating:** This program will "break down" inefficient skating habits and, through repetition, make your stride more powerful!
- **Small Ice Games:** Teaching the concepts of hockey through a series of small area competition oriented activities.
- **Overspeed / Underspeed Training:** The HHS 14-station circuit of "Hockey-Specific" plyometrics, short sprints and bounding will improve a players explosiveness, balance and agility.
- **Shooting/Stick Handling:** Heenan's innovative "Hockey Specific" circuit will significantly improve your shooting and stick handling

All Sessions start promptly at 8:30 am

### **NOTE:**

*This program is aggressively taught. Players are pushed hard to their limits and beyond. This is designed to better the player's ability not to be "just fun". Athletes are expected to work hard and follow instructions. This is not a program for those that are not focused on significantly improving. Coach Heenan will remove those athletes that distract from the system's intensity.*
